# About Me

---

## Hi, I'm Amit Unagar

I'm an Experienced & Creative UI/UX Designer and HTML Developer.

I have 8 years of experience have provided me with a comprehensive understanding of the UI/UX design process and HTML development. I am passionate about creating user-centric designs that are visually appealing, intuitive, and functional. By staying updated with the latest trends and technologies, I strive to deliver outstanding digital experiences that exceed user expectations.
